

We sincerely thank all applicants, including governments, international organizations, research institutions, and NGOs, for their passion and efforts in participating in the side event application process for the 2025 Our Ocean Conference. Their dedication has been instrumental in shaping the conference's vision, and it is with great pleasure that we now announce the results of the first round of side event selections. These selected events will play a pivotal role in addressing the core agendas of the OOC 2025 program.

Given the high volume of exceptional proposals received and the highly competitive selection process, we regret that it was not possible to accommodate all the outstanding submissions in the first round. To provide an additional opportunity for participation, we are pleased to announce the opening of a second round of applications, including those who were not selected in the first round. To ensure broader participation and provide more opportunities for meaningful engagement, we encourage applicants to connect with selected event organizers working on similar topics. We believe that this approach will inspire meaningful connections and pave the way for co-hosting and joint participation, fostering collaboration and maximizing the impact of side events.

Details regarding the side events, such as assigned time, date, and venue, will be shared at a later stage in accordance with the conference schedule.

We greatly appreciate your continued interest and cooperation, and we look forward to witnessing the collective contributions that will shape the success of the 2025 Our Ocean Conference.

The 10th OOC Preparatory Office

Selection Result

Agenda	Event Name	Organizer
 <p>Sustainable Fisheries</p>	<p>The High Seas Treaty and Regional Fishery Management Organizations: Navigating Shared Waters & Responsibilities</p>	<p>Australian National Centre for Ocean Resources and Security</p>
	<p>Transparency in Action</p>	<p>Environmental Justice Foundation</p>
